PrinterCloud for MSPs

Multitenant Print Management Solution for MSPs

Managed Serviced Provider Name

Organize Customers into Folders

Manage Customer Instances of PrinterCloud

- Manage all customer instances of PrinterCloud
- Reduce overall print management cost and effort
- No additional infrastructure required

- Add print management to existing suite of MSP services
- Simple billing and licensing for MSP
- Single pane of glass with single sign-on

Managing printers and drivers in a customer environment with traditional methods wastes time, kills budgets, and eats into profits for Managed Service Providers. Stop worrying about something as mundane as printer and driver management; focus instead on service and profitability with PrinterLogic. It eliminates the need for print servers or any additional infrastructure and converts any existing print environment to centrally managed direct IP printing. What's more, it's all controlled from a single, intuitive web-based admin console.

Customer Management Portal Empowers MSPs

PrinterCloud for MSPs is a cloud solution that allows Managed Service Providers to introduce centralized print management into their current suite of services and add new streams of revenue without additional infrastructure. The customer management portal (CMP) is the heartbeat of print management for MSPs. Create and manage PrinterCloud instances, report on licensing, and manage everything from a single pane of glass.

PrinterCloud for your customer

- SaaS print-management solution for every customer
- No infrastructure to install
- Centralized printer and driver management
- Self-service installation portal
- Automated printer deployment

Manage PrinterCloud

- Manage all customer instances from a single pane of glass
- Create new instances of PrinterCloud
- Single sign-on to every instance

### Track and Manage Customers

- Tree view helps organize customers into logical groups
- View license consumption collectively or by individual
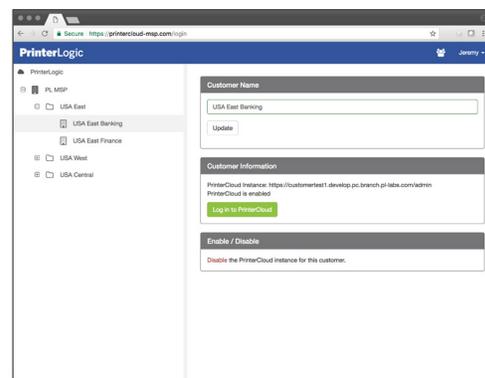

Easy Billing

- License reporting and usage dashboards
- Easy billing that works with an MSP model

Self-service Installation Portal

View Customer Info and License Counts

Single-sign on for each PrinterCloud instance
