EPSON®

Epson DS-C480W

The Epson DS-C480W is a compact, wireless document scanner designed for fast and efficient scanning in office and home environments. With duplex scanning and a 20-sheet automatic document feeder, it easily handles a variety of documents, including receipts, ID cards, and legal-sized papers. Its wireless connectivity and USB options provide flexibility, making it ideal for professionals who need reliable and versatile document digitization.
