Canon

Canon CR-120N
Networked Check Scanning

Help your banks and credit unions future-proof their check scanner technology with the Canon CR-120N. The check scanner is equipped with USB and Ethernet interfaces, allowing financial institutions to use the scanner if they transition their environment from one interface to another. Robust features include scanning speeds of up to 120 items per minute, five-line imprinter, and MICR with OCR processing for accuracy.
