Software Highlights

printix
BY TUNGSTEN AUTOMATION

The Printix Managed Service Provider (MSP) Partner Program enables partners to deliver value-added services to clients. Benefits of this program include tiered discounting, access to Printix tools, best practices, technical resources, and a self-service Partner Portal. Printix also offers a complimentary Not-For-Resale (NFR) license for live product demonstrations.

With Printix, partners can retain margins, improve profitability, and manage more endpoints through efficient, cost-effective print management.
