SOFTWARE

Secure documents with **Kofax Power PDF**

With employees working from anywhere in the world on their personal devices, 71% of IT professionals are increasingly concerned about the risk of a company data breach. Economic loss as well as legal consequences can be detrimental to any company involved in a breach.

Trust Kofax Power PDF to secure documents:

1. Configure read, edit, copy and print authorizations
2. Utilize strong encryption
3. Remove sensitive data manually or automatically
4. Leverage digital signatures and certificates
5. Implement rapidly and integrate with existing systems
6. Compare document versions
