

**TELLER CAPTURE**

Financial Institutions have realized the benefits of transitioning from back counter capture to teller capture for their check imaging. Teller Capture offers many advantages, including:

- Reduced operating costs
- Reduced courier costs
- Increase transactional efficiency
- Identify and correct errors at point-of-transaction
- Improve fraud identification and prevention

Technology for teller capture has become more advanced over the years. Cranel's portfolio includes the latest technology that can help our reseller partners implement solutions that deliver the benefits of teller capture.

**CHECK SCANNERS AND RECEIPT PRINTERS**

The [SmartSource Professional Elite 155](#) check scanner paired with the [Receipt-NOW Elite](#) offers high-performance check scanning and receipt printing in a compact, stackable footprint. The self-cleaning mode on the Professional Elite 155 maximizes up-time, allowing the teller to focus on the customer. The fast and quiet ReceiptNOW printer provides transactional details customers expect.

The [imageFORMULA CR-120](#) stacked with the [RP10 receipt printer](#) saves valuable space at the teller desk. The CR-120 can scan IDs and has an add-on option for a magnetic swipe reader to further reduce the number of components on the teller desk. Canon's solutions are backed by a 1-Year Advanced Exchange warranty, with the option to extend via eCarePAK coverage.

The Digital Check SmartSource Elite series has a self-cleaning mode, which reminds the operator to insert a cleaning card for an automated cleaning procedure.

**CLIENT VERIFICATION**

5-inch Color Signature Pad

Commercial grade scanning quality in an ultra compact footprint.

[Wacom's STU-540 signature pad](#) offers a durable signing surface and Wacom's patented battery free pen technology contribute to a lower total cost of ownership. These signature pads are also enabled with state-of-the-art encryption. Designed with a unique hardware ID that can be embedded in each signature.

The [Ambir DS-687 Duplex ID Card Scanner](#) delivers commercial grade scanning quality in an ultra-compact footprint. This scanner is ideal for capturing data at financial institutions. A single pass provides a quick and accurate simultaneous scan of both sides of ID cards, driver's licenses, checks, and other forms of identification.

**HOW ARE SIGNATURE PADS USED AT THE TELLER WINDOW?**

Think the only benefit to putting your digital John Hancock on a signature pad is to sign something? Think again! These gadgets are also used for cross-marketing, balance verification, and customer identification!
